**Data Structures and Other Objects Using C++ (4th Edition)** By Michael Main, Walter Savitch

*Data Structures and Other Objects Using C++* takes a gentle approach to the data structures course in C++. Providing an early, self-contained review of object-oriented programming and C++, this text gives students a firm grasp of key concepts and allows those experienced in another language to adjust easily. Flexible by design, professors have the option of emphasizing object-oriented programming, covering recursion and sorting early, or accelerating the pace of the course. Finally, a solid foundation in building and using abstract data types is also provided, along with an assortment of advanced topics such as B-trees for project building and graphs.

#### About the Author

**Michael Main** is an Associate Professor of Computer Science at the University of Colorado at Boulder. He earned his BS, MS, and PhD at Washington State University.

**Walter Savitch** is Professor Emeritus of Computer Science at the University of California at San Diego. His interests include complexity theory, formal language theory, computational linguistics, and the development of computer science education materials, including several leading textbooks. He holds a PhD in mathematics from the University of California at Berkeley.

### Users Review

#### From reader reviews:

##### Carson McDonald:

This Data Structures and Other Objects Using C++ (4th Edition) book is not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book will be information inside this e-book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This particular Data Structures and Other Objects Using C++ (4th Edition) without we recognize teach the one who looking at it become critical in contemplating and analyzing. Don't possibly be worry Data Structures and Other Objects Using C++ (4th Edition) can bring whenever you are and not make your carrier space or bookshelves' become full because you can have it within your lovely laptop even cellphone. This Data Structures and Other Objects Using C++ (4th Edition) having good arrangement in word and layout, so you will not really feel uninterested in reading.

##### Norman Ross:

The publication untitled Data Structures and Other Objects Using C++ (4th Edition) is the guide that recommended to you you just read. You can see the quality of the e-book content that will be shown to anyone. The language that writer use to explained their ideas are easily to understand. The article author was did a lot of exploration when write the book, to ensure the information that they share to you personally is

absolutely accurate. You also could get the e-book of Data Structures and Other Objects Using C++ (4th Edition) from the publisher to make you more enjoy free time.

**Sharon Brogdon:**

Your reading 6th sense will not betray an individual, why because this Data Structures and Other Objects Using C++ (4th Edition) guide written by well-known writer who knows well how to make book that may be understand by anyone who else read the book. Written in good manner for you, leaking every ideas and composing skill only for eliminate your hunger then you still skepticism Data Structures and Other Objects Using C++ (4th Edition) as good book not only by the cover but also through the content. This is one publication that can break don't evaluate book by its deal with, so do you still needing an additional sixth sense to pick this specific!? Oh come on your studying sixth sense already told you so why you have to listening to another sixth sense.

**Robert Cox:**

What is your hobby? Have you heard that question when you got students? We believe that that question was given by teacher for their students. Many kinds of hobby, Everybody has different hobby. So you know that little person like reading or as studying become their hobby. You need to know that reading is very important in addition to book as to be the point. Book is important thing to increase you knowledge, except your current teacher or lecturer. You find good news or update regarding something by book. Different categories of books that can you go onto be your object. One of them is actually Data Structures and Other Objects Using C++ (4th Edition).
