Minitab Demystified

By Andrew Sleeper

Minitab Demystified By Andrew Sleeper

Need to learn Minitab? Problem Solved!

Get started using Minitab right way with help from this hands-on guide. *Minitab Demystified* walks you through essential Minitab features and shows you how to apply them to solve statistical analysis problems.

Featuring coverage of Minitab 16, this practical guide explores the Minitab interface and the full range of Minitab graphics, Distribution models, statistical intervals, hypothesis testing, and sample size calculations are clearly explained. The book covers modeling tools of regression and the design of experiments (DOE) as well as the industrial quality tools of measurement systems analysis, control charts, capability analysis, acceptance sampling, and reliability analysis. Detailed examples and concise explanations make it easy to understand the material, and end-of-chapter quizzes and a final exam help reinforce key concepts.

It's a no-brainer! You'll learn about:

- Accessing powerful Minitab functions with the Minitab assistant
- Confidence, prediction, and tolerance intervals
- Designing and analyzing experiments with hard-to-change variables
- Statistical process control (SPC), Six Sigma applications, and quality control
- Predicting the economic impact of sampling
- Analyzing life data with additional variables

*Simple enough for a beginner, challenging enough for an advanced student, and thorough enough for a Six Sigma professional, **Minitab Demystified** is your shortcut to statistical analysis success!*

Editorial Review

About the Author

Andrew Sleeper is a statistical consultant and trainer who has headed his own company since 2002. His industrial career includes work as a design engineer, reliability engineer, project manager, and Six Sigma Black Belt. Sleeper has presented numerous papers and articles on statistical tools in the quality industry. He is the author of two statistical tools books by McGraw-Hill, *Design for Six Sigma Statistics*, and *Six Sigma Distribution Modeling*.

Users Review

From reader reviews:

Kelli Ross:

Book is usually written, printed, or illustrated for everything. You can know everything you want by a guide. Book has a different type. As we know that book is important point to bring us around the world. Beside that you can your reading talent was fluently. A book Minitab Demystified will make you to possibly be smarter. You can feel more confidence if you can know about anything. But some of you think that open or reading any book make you bored. It is not necessarily make you fun. Why they may be thought like that? Have you looking for best book or ideal book with you?

Danny Exum:

In this 21st centuries, people become competitive in most way. By being competitive right now, people have do something to make them survives, being in the middle of often the crowded place and notice by surrounding. One thing that sometimes many people have underestimated the item for a while is reading. Yep, by reading a book your ability to survive raise then having chance to stand than other is high. In your case who want to start reading a book, we give you this specific Minitab Demystified book as nice and daily reading reserve. Why, because this book is more than just a book.

Fred Green:

Minitab Demystified can be one of your nice books that are good idea. All of us recommend that straight away because this reserve has good vocabulary that may increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The author giving his/her effort to place every word into delight arrangement in writing Minitab Demystified but doesn't forget the main point, giving the reader the hottest and based confirm resource info that maybe you can be among it. This great information could drawn you into completely new stage of crucial pondering.

Paul Andrews:

You may spend your free time to read this book this guide. This Minitab Demystified is simple bringing you can read it in the park, in the beach, train as well as soon. If you did not possess much space to bring the printed book, you can buy the e-book. It is make you quicker to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.
