**Principles of Biochemistry (5th Edition)** By Laurence A. Moran, Robert A Horton, Gray Scrimgeour, Marc Perry

*Principles of Biochemistry* provides a concise introduction to fundamental concepts of biochemistry, striking the right balance of rigor and detail between the encyclopedic volumes and the cursory overview texts available today. Widely praised for accuracy, currency, and clarity of exposition, the **Fifth Edition** offers a new student-friendly design, an enhanced visual program, new Application Boxes, contemporary research integrated throughout, and updated end-of-chapter problems.

## **Editorial Review**

About the Author

### **Laurence A. Moran**

After earning his Ph.D from Princeton University in 1974, Professor Moran spent four years at the Université de Genève in Switzerland. He has been a member of the Department of Biochemistry at the University of Toronto since 1978, specializing in molecular biology and molecular evolution. His research findings on heat-shock genes have been published in many scholarly journals.

### **H. Robert Horton**

Dr. Horton, who received his Ph.D from the University of Missouri in 1962, is William Neal Reynolds Professor Emeritus and Alumni Distinguished Professor Emeritus in the Department of Biochemistry at North Carolina State University, where he served on the faculty for over 30 years. Most of Professor Horton's research was in protein and enzyme mechanisms.

### **K. Gray Scrimgeour**

Professor Scrimgeour received his doctorate from the University of Washington in 1961 and has been a faculty member at the University of Toronto since 1967. He is the author of *The Chemistry and Control of Enzymatic Reactions* (1977, Academic Press), and his work on enzymatic systems has been published in more than 50 professional journal articles during the past 40 years. From 1984—1992, he was editor of the journal *Biochemistry and Cell Biology*.

### **Marc D. Perry**

After earning his Ph.D. from the University of Toronto in 1988, Dr. Perry trained at the University of Colorado, where he studied sex determination in the nematode *C. elegans*. In 1994 he returned to the University of Toronto as a faculty member in the department of Molecular and Medical Genetics. His research has focused on developmental genetics, meiosis and bioinformatics. In 2004 he joined the Heart & Stroke / Richard Lewar Centre of Excellence in Cardiovascular Research in the University of Toronto's Faculty of Medicine.

## **Users Review**

**From reader reviews:**

**Steven Connell:**

Have you spare time for a day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their spare time to take a wander, shopping, or went to the Mall. How about open as well as read a book entitled Principles of Biochemistry (5th Edition)? Maybe it is to be best activity for you. You recognize beside you can spend your time using your favorite's book, you can smarter than before. Do you agree with its opinion or you have additional opinion?

**Juan Turgeon:**

This book entitled Principles of Biochemistry (5th Edition) to be one of several books that will best seller in this year, that's because when you read this e-book you can get a lot of benefit on it. You will easily to buy this specific book in the book shop or you can order it by means of online. The publisher on this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Mobile phone. So there is no reason to you personally to past this reserve from your list.

**Ilene Bixler:**

As we know that book is very important thing to add our knowledge for everything. By a reserve we can know everything we really wish for. A book is a pair of written, printed, illustrated as well as blank sheet. Every year ended up being exactly added. This publication Principles of Biochemistry (5th Edition) was filled about science. Spend your time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading some sort of book. If you know how big good thing about a book, you can experience enjoy to read a book. In the modern era like now, many ways to get book that you wanted.

**Christopher Scoville:**

Do you like reading a reserve? Confuse to looking for your best book? Or your book had been rare? Why so many question for the book? But almost any people feel that they enjoy to get reading. Some people likes studying, not only science book but novel and Principles of Biochemistry (5th Edition) or even others sources were given know-how for you. After you know how the good a book, you feel need to read more and more. Science publication was created for teacher or students especially. Those textbooks are helping them to include their knowledge. In various other case, beside science reserve, any other book likes Principles of Biochemistry (5th Edition) to make your spare time more colorful. Many types of book like here.
