Religion in Mind: Cognitive Perspectives on Religious Belief, Ritual, and Experience From Cambridge University Press

Religion in Mind summarizes and extends the past decade's advances in the cognitive study of religion. Its aim is to use empirical research from psychology and anthropology to understand different components of religious belief, ritual and experience. The book draws together teachers of religion, psychologists of religion and cognitive scientists and encourages greater interdisciplinary linkages among scholars from different fields. It will be of interest to researchers in anthropology, psychology, sociology, history, philosophy, and cognitive science and also to the general reader interested in religion and science.
