AMA Manual of Style: A Guide for Authors and Editors By JAMA & Archives Journals

For decades indispensable, the *AMA Manual of Style* continues to provide editorial support to the medical and scientific publishing community. Since the 1998 publication of the 9th edition, however, the world of medical publishing has rapidly modernized, and the intersection of research and publishing has become ever more complex. The 10th edition of the *AMA Manual of Style* brings this definitive manual into the 21st century with a broadened international perspective.

In doing so, the 10th edition has expanded its electronic guidelines, with the understanding that authors now routinely submit articles through online systems and often cite Web-only content. Ethical and legal issues receive increased attention, with detailed guidelines on authorship, conflicts of interest, scientific misconduct, intellectual property, and the protection of individuals' rights in scientific research and publication. The new edition examines research ethics and editorial independence and features new material on indexing and searching as well as medical nomenclature.

The *JAMA* Network, one of the most respected groups of medical publications in the world, have lent members of their expert staff of professional journal editors to the committee that has produced this edition. Extensively peer-reviewed, the 10th edition provides a welcome and improved standard for the growing international medical community. More than a style manual, this 10th edition offers invaluable guidance on how to navigate the dilemmas that authors and researchers and their institutions, medical editors and publishers, and members of the news media who cover scientific research confront in a society that has thrust these issues center stage. Also available in an online version!

Editorial Review

Review

"The 10th edition instructs writers how to attach audio and video clips, as well as links to Web-based supplementary material. It also instructs them how to reference research that, in addition to books pulled from the library stacks, might include Web sites, messages from e-mail lists, or online-conference proceedings...The new Oxford University Press version also has an expanded, 175-page chapter on ethical and legal concerns, including conflict of interest, scientific misconduct, intellectual-property rights, and protection of research subjects' rights in scientific research and publication."--*Chronicle of Higher Education*

"Essential tool for physicians and other health professionals. In addition to the basics of grammar and citation, it leads writers through the thickets of abbreviation, nomenclature, and quantitation."--*Booklist*

"The manual is comprehensive and detailed, and I can't think of a single relevant aspect of medical and scientific writing that is not covered here."--*Doody's, a 5 star review*

"For medical writers and editors, the *AMA Manual of Style* remains the unrivaled point of departure."--*Copyediting*

"The manual is thorough and authoritative...the content is carefully referenced, and the references on all topics are impressively up-to-date."--Review from *The Journal of the European Medical Writers Association*

"This excellent manual offers the means to produce essays, articles or research papers that are well organized and authoritative."--*Nursing Standard*

"The manual's expository style is exemplary. It is relaxed and unpretentious...The manual covers impressive new territory."--*The Editorial Eye*

About the Author

JAMA and the *Archives Journals*, one of the most respected groups of medical publications in the world, have lent members of their expert staff of professional journal editors to the committee that has produced this

edition.

Users Review

From reader reviews:

Donna Casey:

What do you consider book? It is just for students as they are still students or that for all people in the world, what best subject for that? Merely you can be answered for that concern above. Every person has several personality and hobby per other. Don't to be forced someone or something that they don't desire do that. You must know how great in addition to important the book AMA Manual of Style: A Guide for Authors and Editors. All type of book could you see on many sources. You can look for the internet resources or other social media.

Arnold Browning:

AMA Manual of Style: A Guide for Authors and Editors can be one of your beginning books that are good idea. Many of us recommend that straight away because this e-book has good vocabulary which could increase your knowledge in words, easy to understand, bit entertaining but nevertheless delivering the information. The writer giving his/her effort that will put every word into delight arrangement in writing AMA Manual of Style: A Guide for Authors and Editors however doesn't forget the main place, giving the reader the hottest along with based confirm resource details that maybe you can be among it. This great information can certainly drawn you into brand-new stage of crucial contemplating.

Ashley Wright:

Your reading sixth sense will not betray you, why because this AMA Manual of Style: A Guide for Authors and Editors e-book written by well-known writer who really knows well how to make book that may be understand by anyone who have read the book. Written inside good manner for you, dripping every ideas and composing skill only for eliminate your hunger then you still doubt AMA Manual of Style: A Guide for Authors and Editors as good book not just by the cover but also through the content. This is one reserve that can break don't ascertain book by its protect, so do you still needing an additional sixth sense to pick this specific!? Oh come on your studying sixth sense already told you so why you have to listening to an additional sixth sense.

Brandy Felts:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring along with can't see colorful pics on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this AMA Manual of Style: A Guide for Authors and Editors can make you

experience more interested to read.
