Editorial Review

Review

"Taking Augustine's Platonism seriously thus affords a better understanding of Augustine's theory of knowledge than taking either Aristotelian or Avicennan notions of the intellect as normative." (*Scottish Journal of Theology*, 1 July 2014)

"Nonetheless, she has written an important and stimulating book." (*Reviews in Religion and Theology*, 1 March 2013)

"This volume merits attention from patristic scholars, medievalists, systematic theologians, and philosophers alike." (*Religious Studies Review*, 1 June 2012)

"Schumacher could very well recommend the epistemological itinerary of the *de Trinitate* without the challenge of re-writing western intellectual history. I look forward to her next book, which promises to do just that." (*Modern Theology*, 1 January 2013)

Review

"An important and ground-breaking study which links growing interest in Augustine and medieval philosophy with cutting edge questions in contemporary philosophy of religion, particularly concerning epistemology and the 'rationality' of religion.

—**Janet Soskice**, University of Cambridge

"In this lucidly argued and solidly documented study Schumacher uncovers the roots of problems notoriously besetting modern theories of knowledge in conflicting medieval interpretations of Augustine's assumptions about knowledge as divine illumination: an intriguing thesis, which she handles with delicacy and flair."

—**Fergus Kerr**, O.P. University of Edinburgh

"Challenges the traditional history of theories of knowledge. A bold and provocative reading."

—**Olivier Boulnois**, Ecole Pratique des Hautes Etudes (University of Paris, Sorbonne)

From the Back Cover

This is an account of the history and current relevance of the theory of divine illumination, held by Augustine as the pre-condition for all knowledge. Schumacher traces the idea from its Platonic origins, through its re-working by St. Augustine, and its use by medieval thinkers such as Duns Scotus, Anselm, Bonaventure and Aquinas. Augustine's account was widely held to be authoritative until the end of the thirteenth century, when former champions of Augustine's tradition, the Franciscan order, pronounced illumination theory untenable.

Schumacher recovers the notion of illumination, showing how the medieval use of the theory unwittingly and radically changed Augustine's original ideas. In an intellectually adventurous retracing of the prehistory of the modern theory of knowledge, Schumacher examines the presuppositions of divine illumination in Augustine, Anselm, Bonaventure and Aquinas. The book goes beyond this, however, in combining an

analysis of these historical texts with cutting edge questions in current philosophical theology on faith and reason, and the relation of metaphysics and epistemology

This book is an original and lucid contribution to the history of philosophy, medieval history, and modern theology and philosophy.
