Blood pressure drugs guarantee you will get worse, for they actually deplete the nutrients that cause high blood pressure, making sure you will need even more medications. They also shrink the brain and raise your risk of heart attack, senility and blindness. High blood pressure is not a deficiency of blood pressure-lowering drugs. But there are dozens of ways you can permanently cure your high blood pressure without drugs. And since healthy blood vessels determine the longevity of every organ in the entire body, you need this book even if you don't have high blood pressure, for vascular health is key to total body health and longevity. First of all every single cell of your body depends on the health of your blood vessels that supply them. If you don't want to get Alzheimer's, then you need a healthy brain, but it is only as healthy as its blood supply. Likewise, if you don't want cancer (or you are trying to heal it), it starts (and spreads) in areas of poor circulation. The High Blood Pressure Hoax will show you that for every ailment even one as simple as high blood pressure, there are multiple causes and multiple cures. You have a lot to choose from. In fact, I would suggest you read the entire book before you chose your program. For by understanding how the various causes work, you (who know your body and medical history better than anyone else) have the optimum opportunity for choosing the best solution for you. This is the ultimate plan for vascular health, but it doesn't stop there. It also continues on from where Detoxify or Die left off and takes you to more powerful levels of detoxification. I can't wait to empower you! So let's get started.
