Real Estate Investment Trusts in Europe: Evolution, Regulation, and Opportunities for Growth From Springer

Shortly before of the beginning of the global financial crisis of 2008 REITs were introduced in several European countries based on their success in mature markets like the US, Australia and some Asian countries. While the history of REITs in Europe has been relatively brief, REITs are well on the way to become an industry standard as a real estate investment financial vehicle not only in Europe but throughout the developed world. This book provides both academics and decision makers an introduction to the economics of REITs beyond tax transparency, an overview of the mature REITs markets, and a closer reflection of the development of different REIT-structures in Europe including the history, regulation and markets of each country.

Editorial Review

Review

From the book reviews:

“The book is a very useful overview of the substantial challenges and transitions the industry is facing, particularly in Europe, and goes beyond the question of tax transparency for the benefit of the interested reader. Therefore, it is a must-read for everyone in the related industry and Europe and again a very fruitful contribution from the two editors to this topic.” (Tobias Pfeffer, ZIO Zeitschrift für Immobilienökonomie, Journal of Interdisciplinary Property Research, Issue 1, 2014)

From the Back Cover

Shortly before of the beginning of the global financial crisis of 2008 REITs were introduced in several European countries based on their success in mature markets like the US, Australia and some Asian countries. While the history of REITs in Europe has been relatively brief, REITs are well on the way to become an industry standard as a real estate investment financial vehicle not only in Europe but throughout the developed world. This book provides both academics and decision makers an introduction to the economics of REITs beyond tax transparency, an overview of the mature REITs markets, and a closer reflection of the development of different REIT-structures in Europe including the history, regulation and markets of each country.

Users Review

From reader reviews:

Robert Gibson:

Nowadays reading books become more than want or need but also become a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book that improve your knowledge and information. The information you get based on what kind of book you read, if you want get more knowledge just go with training books but if you want sense happy read one with theme for entertaining for instance comic or novel. The particular Real Estate Investment Trusts in Europe: Evolution, Regulation, and Opportunities for Growth is kind of guide which is giving the reader unstable experience.

Angeline Stallings:

Reading a reserve tends to be new life style on this era globalization. With reading you can get a lot of information that could give you benefit in your life. Having book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the textbooks. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to

teach children, there are many kinds of book which exist now. The authors on earth always try to improve their skill in writing, they also doing some research before they write to their book. One of them is this Real Estate Investment Trusts in Europe: Evolution, Regulation, and Opportunities for Growth.

Charlene Stidham:

Does one one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Attempt to pick one book that you never know the inside because don't ascertain book by its include may doesn't work this is difficult job because you are afraid that the inside maybe not seeing that fantastic as in the outside search likes. Maybe you answer can be Real Estate Investment Trusts in Europe: Evolution, Regulation, and Opportunities for Growth why because the excellent cover that make you consider about the content will not disappoint anyone. The inside or content is usually fantastic as the outside as well as cover. Your reading 6th sense will directly show you to pick up this book.

Marlene Clabaugh:

Reading a book make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is written or printed or descriptive from each source this filled update of news. With this modern era like now, many ways to get information are available for you.
