How to Cure Almost Any Cancer at Home for \$5.15 a Day By Bill Henderson, Andrew Scholberg

“What’s going on? The cancer is melting away” exclaimed the South Carolina doctor who had given his “terminal” lung cancer patient “six months to live.” Little did the doctor know his patient was curing her cancer at home with perhaps the most effective cancer-killing miracle food on planet earth. A miracle food that kills cancer better than chemo, as proven by the seven-time Nobel Prize nominee who discovered it... a miracle food that gives cancer patients more energy and zest for life... a miracle food that “liquidates” cancer—melting it away without causing side effects... a miracle food that astonishes conventional doctors. This miracle food is the cornerstone of cancer author and radio commentator Bill Henderson’s favorite protocol for curing cancer at home. Bill’s two leading books and weekly radio shows have helped people in 59 countries discover safe and effective ways to get rid of almost any cancer without surgery, without radiation and without chemotherapy. Now, for the first time, Bill has devoted an entire Special Report— **How to Cure Almost Any Cancer At Home for \$5.15 A Day**— to this miracle food and to how you can use his cancer fighting protocol to melt away even stage-four cancers. Besides being incredibly effective, Bill’s entire protocol is also very easy. The whole thing fits on a recipe card you can tape to your refrigerator door. And it’s so inexpensive at just \$5.15 per day that almost everyone can afford it. What’s more, after six weeks the cost drops to \$3.50 per day, making it even less expensive. Bill’s protocol has cured cancer even in patients written off by their doctors as “hopeless” and “terminal.” One of these patients, Richard, a plantation owner from Louisiana was dying of brain cancer and had “two months to live.” But Richard left his hospice — a place where people wait to die — and went home to cure his cancer. Have you ever heard of someone walking out of a hospice and curing terminal brain cancer at home? Shouldn’t the medical profession be shouting from the rooftops about this amazing cure? Well, don’t hold your breath for that to happen. It would cost the drug companies a fortune in lost profits if too many people started using this miracle food. And the drug companies will do everything in their power to make sure the medical establishment keeps this natural cancer cure under wraps. It’s why this Special Report **How to Cure Almost Any Cancer At Home for \$5.15 A Day** is a must for anyone who is worried about the deadly consequences of cancer or conventional cancer treatments. Dear Bill, I want to thank YOU for all of the hard work and dedication that you've put into this labor of love!!! I truly appreciate all of this information Bill, and I consider it truly a blessing from God that I stumbled across [your recommendations]. My Mom has Acute Lymphocytic Leukemia, but she is currently in remission...I want to thank you from the bottom of my heart! --Natasha

Hi Bill: Thanks much for your guidance and advice. You are doing a great deed for humanity. By way of recognition, I must report to you great results we had through your recommendations. Based on your advice we started using [the miracle food and Bill's recommendations]. She had 4 treatments with chemo all the time complementing it with the above regimen. Today I'm happy to report that we did a full body PET/CT scan the results came back: A complete resolution in the left breast, no lymphatic involvement, an 80% reduction in the manubrium uptake. Quite dramatic to the amazement of my oncologist who told me he did recommend this regimen to other patients, even some of his family members. It also helped her to minimize the side effects of chemo. Throughout the whole time, she never missed a day of work except the day of the treatment. --Thanks a Million, Simon

Hi, Bill. I've been working on a dissertation for a second PhD on alternative therapy for cancer. I'm sure I will be quoting you (and giving credit where credit is due, of course) in my research. [You] make no absurd promises, and indeed offer hope. As a registered nurse, I have become increasingly disillusioned by the miracle of modern medicine in connection with the treatment of cancers. We have NOT improved the lives of anyone. Chemo and radiation patients usually succumb to another devastating illness because of the lack of immune response. The medical community fails to give these details to the patient. --Dr. Randy Walden, RN, Ph.D.
