### Editorial Review

From Publishers Weekly

Sparrow, a transpersonal therapist who utilizes Tibetan yoga, has edited a collection of contemporary stories purporting to be about encounters with Jesus or Christ. The author synthesizes Eastern and Western (biblical) thought quite smoothly, but readers are left to judge credibility of unidentified witnesses about the encounters. Most, but not all, witnesses are under great stress or are disconsolate; and dramatic healings or reconciliations usually result. The Jesus who appears in these accounts is less like the biblical Jesus than like the angels of current fashion; Sparrow's Christ is simply too tame. Nor is it ever clear how the witnesses themselves know that it is Jesus whom they encounter; they seem to intuit without any way to verify or check. This uncritical identification of Jesus, while it may reflect the lingering, pervasive influence of Christianity, reflects as well the abandonment of rationalism; and the stories, although they are engagingly told, betray a deep and wide spiritual malaise.

From Library Journal

It was perhaps only a matter of time before a waning interest in stories of encounters with angels gave rise to a fascination with stories about encounters with Jesus. Here psychotherapist Sparrow collects stories ranging from near-death experiences to physical healings to demonstrate the transformative power of encounters with Jesus. The stories are arranged in sections dealing with awakenings, physical and emotional healing, initiation, and spiritual instruction. In one memorable encounter, a woman sees gold liquid flowing from a thunderhead to form the figure of Jesus, who tells her to "be in communion" with him. Although his interpretations are often distracting, Sparrow's book is still likely to be very popular. Most libraries will want to purchase it.

For the past five years, transpersonal psychotherapist G. Scott Sparrow has collected and studied accounts of contemporary face-to-face encounters with Christ, including his own. In spite of the subtitle, he wisely refrains from any narrowly defined attempt to assess the objective truth of the encounters, opting instead to focus on their subjective experiential authenticity. In many cases, they have had profound impact on the persons reporting them, and in some cases they have the potential of profound impact on persons reading them. For the most part, the book simply reports the encounters, though Sparrow does provide interesting commentary that places them in a history of Christian encounter stories beginning with Mary Magdalene. He organizes the material into broad categories--awakening, physical healing and consolation, emotional healing, initiation, and spiritual instruction--that could prove useful as heuristic devices for the study of contemporary mystical experience. But the interest of the book lies more in its raw material than in its theoretical insight. *Steve Schroeder*
