Editorial Review

Review

"This is a gem of a book. In 110 pages of text, Larvor gives us a lucid, systematic, and original analysis and criticism of Lakatos's writings."

- "Teaching Philosophy, March 2000

"A proper appreciation of Lakatos's unique contribution to both the philosophy of science and the philosophy of mathematics is long overdue. Larvor's work is a perceptive study, and it can only be hoped that it will lead to a better understanding of the importance of Lakatos's thinking about the development and appraisal of his theories."

-George S. Botterill

""Lakatos: An Introduction is very well written. The style is clean and economical, not cluttered by jargon, and flows well. I would use this as a text in an undergraduate course as well as in a graduate level course."

-Mary Tiles, University of Hawaii at Manoa

About the Author

Brendan Larvor is Lecturer of Philosophy at University of Oxford.

Users Review

From reader reviews:

Todd Crain:

The book Lakatos: An Introduction can give more knowledge and information about everything you want. Exactly why must we leave the good thing like a book Lakatos: An Introduction? Several of you have a different opinion about reserve. But one aim in which book can give many information for us. It is absolutely right. Right now, try to closer together with your book. Knowledge or data that you take for that, you could give for each other; it is possible to share all of these. Book Lakatos: An Introduction has simple shape but the truth is know: it has great and massive function for you. You can look the enormous world by open and read a e-book. So it is very wonderful.

Andrew Fogarty:

This book untitled Lakatos: An Introduction to be one of several books this best seller in this year, that's because when you read this publication you can get a lot of benefit into it. You will easily to buy this book in the book retail outlet or you can order it by way of online. The publisher of the book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Smartphone. So there is no reason for you to past this e-book from your list.
