### Editorial Review

#### Review

**a must for road safety researchers!** ... an excellent starting point for a discussion between policy makers and researchers. This handbook offers an **enormous amount of information** for the interested reader. ... the reputation of the authors and their approach ensures that this book is a **valuable addition** to worldwide safety research. ... this book has **no competitor**, and I hope [it] will find its way to many researcher and those responsible for road safety policies. This handbook is **extremely welcome** and actually **indispensable** for [discussions of whether a particular measure deserves support]. ... **very helpful** for discussions between policy makers and researchers and, as such, contributes to road safety policies being of a higher quality.

--Fred Wegman, SWOV Institut for Road Safety Research, in European Journal of Transport and Infrastructure Research (2004).

In summary, an important, timely and useful book that should benefit researchers and practitioners alike -- Will Murray, Research Director, Interactive Driving Systems[registered] in a book review in Logistics and Transport Focus
