Principles of Seed Science and Technology - Fourth Edition By Lawrence O. Copeland, Miller F. McDonald

This Fourth Edition of Principles of Seed Science and Technology, like the first three editions, is written for the advanced undergraduate student or lay person who desires an introduction to the science and technology of seeds. The first nine chapters present the seed as a biological system and cover its origin, development, composition, function (and sometimes nonfunction), performance and ultimate deterioration. The last nine chapters present the fundamentals of how seeds are produced, conditioned, evaluated and distributed in our modern agricultural society. Two new chapters have been added in this fourth edition, one on seed ecology and the second on seed drying. Finally, revisions have been made throughout to reflect changes that have occurred in the seed industry since publication of the Third Edition. Because of the fundamental importance of seeds to both agriculture and to all of society, we have taken great care to present the science and technology of seeds with the respect and feeling this study deserves. We hope that this feeling will be communicated to our readers. Furthermore, we have attempted to present information in a straight-forward, easy-to-read manner that will be easily understood by students and lay persons alike. Special care has been taken to address both current state-of-the-art as well as future trends in seed technology.

Editorial Review

Review

'...a useful addition to the increasing literature dealing with seeds.'

Israel Journal of Plant Sciences

From the Back Cover

This third edition of the successful textbook provides an updated introduction to the science and technology of seeds. It presents a straightforward exploration of the seed as a biological system, from its origin to its ultimate determination, and examines the fundamentals of how seeds are produced, conditioned, evaluated, and distributed in modern agriculture. This edition has been thoroughly revised and contains a fascinating new chapter on seed enhancement which reflects the advances made in new physiological and molecular biology techniques. The discussion includes pelletization, embryo encapsulation or 'artificial seeds', and hormone-treated seeds. *Principles of Seed Science and Technology, Third edition* gives advanced undergraduate students the current state of the art and future trends in seed technology. Newcomers to the field will also benefit from the volume's straightforward style and in-depth treatment of the subject.

About the Author

Miller B. McDonald is Professor Emeritus in the Department of Horticulture and Crop Science at The Ohio State University.

Users Review

From reader reviews:

Marie Aultman:

The book *Principles of Seed Science and Technology - Fourth Edition* can give more knowledge and information about everything you want. Why must we leave the good thing like a book *Principles of Seed Science and Technology - Fourth Edition*? Several of you have a different opinion about book. But one aim this book can give many information for us. It is absolutely right. Right now, try to closer with your book. Knowledge or facts that you take for that, it is possible to give for each other; you may share all of these. Book *Principles of Seed Science and Technology - Fourth Edition* has simple shape but you know: it has great and big function for you. You can search the enormous world by wide open and read a guide. So it is very wonderful.

Jerry Raminez:

Principles of Seed Science and Technology - Fourth Edition can be one of your beginning books that are good idea. Most of us recommend that straight away because this publication has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but still delivering the information. The copy writer giving his/her effort to place every word into delight arrangement in writing *Principles of Seed Science and Technology - Fourth Edition* nevertheless doesn't forget the main position, giving the reader the hottest and also based confirm resource details that maybe you can be considered one of it. This great information can draw you into new stage of crucial pondering.

Pat Swartz:

As we know that book is vital thing to add our information for everything. By a book we can know everything you want. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year was exactly added. This book Principles of Seed Science and Technology - Fourth Edition was filled with regards to science. Spend your spare time to add your knowledge about your research competence. Some people has several feel when they reading a new book. If you know how big advantage of a book, you can experience enjoy to read a e-book. In the modern era like at this point, many ways to get book that you just wanted.

Mary Peterson:

A lot of e-book has printed but it takes a different approach. You can get it by net on social media. You can choose the top book for you, science, witty, novel, or whatever through searching from it. It is known as of book Principles of Seed Science and Technology - Fourth Edition. You can add your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make an individual happier to read. It is most crucial that, you must aware about guide. It can bring you from one location to other place.
