## Molecular Medical Parasitology From Academic Press

A valuable, new source, **Molecular Medical Parasitology** is the only text of its kind -- one that applies broad concepts and current scientific advances from both molecular biology and biochemistry to the study of parasitic organisms. An internationally renowned team of scientists and physicians places parasites in their broad biological contexts while still emphasizing the specifics that differentiate these organisms. Not only will researchers and faculty in parasitology find this an indispensable guide, physicians will benefit from the thorough coverage molecular biology and biochemistry's current influences on treatment and management of parasitic diseases.

- Features the most up-to-date scientific methods behind the medical management of parasitic diseases
- Applies the most current synthesis of molecular biology and biochemistry to parasitic organisms
- Contains many informative figures and clear illustrations

## Editorial Review

### Review

"This book will be a valuable addition to the bookshelves of persons interested in molecular parasitology. It will be most useful as a reference text for those in the field and as a primer for those new to parasitology. This volume provides a comprehensive single reference that will keep clinicians and nonparasitologists who are interested in infectious diseases well informed about this important area." --*CID* (2003)

"...this book forms an important resource for graduate and advanced studies on parasitology. ...a highly useful collection for health sciences scholars and libraries." --*E-STREAMS* (2003)

### About the Author

Dr. J. J. Marr has held positions in academic medicine and biochemistry; as Director of Divisions of Infectious Diseases; Vice Chairman, Department of Medicine; and Professor of Medicine, Biochemistry and Microbiology at Washington University, St. Louis University and the University of Colorado. Subsequently, he was Senior Vice President for Drug Discovery at Searle Pharmaceuticals, acted as a consultant to the National Institutes of Health and the World Health Organization, and now holds the position of Vice President for Research and Development/Chief Scientific Officer, Ribozyme Pharmaceuticals, Inc.
