## Grainger & Allison's Diagnostic Radiology: Multiple Choice Questions, 4e

By Adam W. M. Mitchell MB BS FRCS FRCR

This book allows trainees preparing to sit the Royal College of Radiologists fellowship exam to test their factual knowledge of diagnostic imaging and related clinicopathological aspects. The book is a collection of over 500 multiple choice questions that are divided into subject chapters corresponding with those in Grainger and Allison's Diagnostic Radiology, 4th edition. Full explanatory answers are given for all of the questions so that this book may be used as a useful complement to the main textbook (cross references are given to page and chapter numbers of the parent text), or to any other general radiology text. All of the questions take the form of a stem with five branches which must be answered true or false.
