**The 5th Wave: The First Book of the 5th Wave Series** By Rick Yancey

**The #1 *New York Times* Bestseller, now a major motion picture starring Chloë Grace Moretz**

***The Passage* meets *Ender's Game* in the first book in an epic series by award-winning author Rick Yancey.**

**"Remarkable, not-to-be-missed-under-any-circumstances."—*Entertainment Weekly***

**"A modern sci-fi masterpiece . . ."—*USAToday.com***

After the 1st wave, only darkness remains. After the 2nd, only the lucky escape. And after the 3rd, only the *unlucky* survive. After the 4th wave, only one rule applies: trust no one.

Now, it's the dawn of the 5th wave, and on a lonely stretch of highway, Cassie runs from Them. The beings who only look human, who roam the countryside killing anyone they see. Who have scattered Earth's last survivors. To stay alone is to stay alive, Cassie believes, until she meets Evan Walker. Beguiling and mysterious, Evan Walker may be Cassie's only hope for rescuing her brother--or even saving herself. But Cassie must choose: between trust and despair, between defiance and surrender, between life and death. To give up or to get up.

**"Wildly entertaining . . . I couldn't turn the pages fast enough."—Justin Cronin, *The New York Times Book Review***

**An Amazon Best Book of the Year**

**A *New York Times* bestseller**

**A *USA Today* bestseller**

### Editorial Review

Amazon.com Review

**An Amazon Best Teen Book of the Month, May 2013 Spotlight Pick:** Forget your *E.T.* version of sweet, harmless aliens--in *The 5th Wave*, Rick Yancey imagines a silent invasion that takes extraterrestrial intelligence to a whole new level. Alternating points of view peel back each new layer of the novel while death, separation, and love, push his diverse characters to survive in a terrifying new world. As a storyteller, Yancey is as cunning as his aliens, weaving the characters' lives together in unexpected ways. After the first couple of chapters I found myself sucked wholeheartedly into the story, wondering who can be trusted and what chilling new twist is lurking around the corner. Book 2 can't get here fast enough... --*Seira Wilson*

From School Library Journal

Gr 9 Up-Cassie travels with just the essentials. First on the list: Luger, M-16, ammo, Bowie knife. Incidentals like food, water, sleeping bag, and nail clippers come further down. A nondescript 16-year-old, she is one of the very few people left alive on Earth. Aliens sent waves of destructive forces to eradicate humans: Cassie's family survived the 1st and 2nd Waves. Her mother died in the 3rd Wave (Pestilence) and her father in the 4th (Silencers). Her little brother may still be alive; he may even be safe in a military compound, as Cassie deals with the 5th Wave- a carefully orchestrated survival dance of kill or be killed. The aliens are never described in detail, and their reasons for wanting the humans gone are not clear. But they are ruthless and determined, and their methods for gaining control mean readers will never again see owls as the friendly, mail-delivering avians portrayed in the world of Harry Potter. The compelling story is told from the viewpoints of Cassie and Ben, who is now a soldier known as Zombie. Cassie crushed on Ben at school, but he never particularly noticed her. Now he has transformed from handsome high school sports star to focused paramilitary killer. Yancey's story is full of violent twists and turns, but character development continues along with nonstop action. Cassie and Ben grow out of high school self-centeredness and find leadership qualities. Cassie's interactions with an alien elevate him from a one-dimensional "bad guy" role. While the big body counts (billions die) happen largely offscreen, there are numerous more personal instances in which teens are both killers and killed. The ending has enough planned loose ends to practically guarantee a sequel.-Maggie Knapp, Trinity Valley School, Fort Worth, TXα(c) Copyright 2011. **\*Starred Review\*** The Monstrumologist series set a bar for YA horror nearly impossible to match. Can Yancey do the same for sci-fi? He makes a hell of an effort with this ambitious series starter set in the aftermath of a crushing alien invasion in which the aliens themselves never appeared. Seven billion humans have died in the months following the appearance of a giant mother ship. Wave 1: an electromagnetic pulse rendering all machines useless. Wave 2: tsunamis wiping out coastal cities. Wave 3: the Red Death, a deadly plague carried by birds. Wave 4: Silencers, humans who were implanted with alien intelligence as fetuses. We don't even want to know about Wave 5—do we? Monstrumologist fans will be surprised to discover that Yancey grounds his multiperspective survivalist thriller in two fairly conventional YA voices: Cassie, 16, whose grim solitary existence changes when she is rescued by hunky but mysterious Evan; and Zombie, 17, ex-sports star thrown into a brutal boot camp to train as an alien killer. Yancey's heartfelt, violent, paranoid epic, filled with big heroics and bigger surprises, is part War of the Worlds, part Starship Troopers, part Invasion of the Body Snatchers, and part The Stand, but just close enough to dystopic trends to make this a sure thing for reviewers and readers alike. **HIGH-DEMAND BACKSTORY:** Hype has been heavy since a big preempt sale and an announced 500,000 first printing. Film rights are sold, tours are planned, ads will be

omnipresent—need we say more? Grades 9-12. --Kraus, Daniel

## **Users Review**

### **From reader reviews:**

#### **Hilda Baker:**

This The 5th Wave: The First Book of the 5th Wave Series is great book for you because the content that is certainly full of information for you who have always deal with world and have to make decision every minute.
