The Boisterous Sea of Liberty: A Documentary History of America from Discovery through the Civil War From Oxford University Press

Drawing on a gold mine of primary documents--including letters, diary entries, personal narratives, political speeches, broadsides, trial transcripts, and contemporary newspaper articles--*The Boisterous Sea of Liberty* brings the past to life in a way few histories ever do.

Here is a panoramic look at early American history as captured in the words of Benjamin Franklin, Thomas Jefferson, George Washington, Andrew Jackson, Abraham Lincoln, Frederick Douglass, Harriet Beecher Stowe and many other historical figures, both famous and obscure. In these pieces, the living voices of the past speak to us from opposing viewpoints--from the vantage point of loyalists as well as patriots, slaves as well as masters. The documents collected here provide a fuller understanding of such historical issues as Columbus's dealings with Native Americans, the Stamp Act Crisis, the Declaration of Independence, the Whiskey Rebellion, the Missouri Crisis, the Mexican War, and Harpers Ferry, to name but a few.

Compiled by Pulitzer Prize winning historian David Brion Davis and Steven Mintz, and accompanied by extensive illustrations of original documents, *The Boisterous Sea of Liberty* brings the reader back in time, to meet the men and women who lived through the momentous events that shaped our nation.

In historical writing, there's no substitute for primary sources such as letters and diaries of eyewitnesses and participants. But all too often those sources are handled as minor adjuncts to a text, appearing in truncated form with so little context provided that the immediacy of the material is diluted. *The Boisterous Sea of Liberty* takes the direct approach of celebrating the primary sources, offering 366 separate documents from colonial times to the Civil War, each presented with a brief yet substantive introduction that provides context as well as entertaining background information about the writers and their subjects. The result is a hefty volume with entries that, as the introduction by coeditor and Pulitzer Prize-winning historian David Brion Davis, puts it, "can have the power of a fax or e-mail just received, evaporating the gap between past and present." Commendably, editors Davis, a history professor at Yale, and Steven Mintz, a history professor at the University of Houston, have mined deep and wide into the American past in their effort to construct a "documentary history" of the nation up to the Civil War. Not only are there some obvious primary sources, including letters by Washington, Jefferson, and Lincoln, but there are also letters and diary entries by people you may never have heard of before, but who offer valuable insight and fascinating commentary into the United States' first century. --*Robert McNamara*

"A revealing, fascinating view of early America told through the words of the historical figures."--*Albuquerque Tribune*

"Intriguing."--*Richmond Times-Dispatch*

"*The Boisterous Sea of Liberty* is an invaluable resource, not to mention an eye-opener to those who believe all history is written in stone."--*Denver Post*

"With their new book, *The Boisterous Sea of Liberty*, David Brion Davis and Steven Mintz remove history from its Ivory Tower and return it to the general public....The book seems alive, full of the voices and sounds of proclamations long defunct."--*New Haven Advocate*
