The Cambridge Handbook of Artificial Intelligence From Cambridge University Press

Artificial intelligence, or AI, is a cross-disciplinary approach to understanding, modeling, and creating intelligence of various forms. It is a critical branch of cognitive science, and its influence is increasingly being felt in other areas, including the humanities. AI applications are transforming the way we interact with each other and with our environment, and work in artificially modeling intelligence is offering new insights into the human mind and revealing new forms mentality can take. This volume of original essays presents the state of the art in AI, surveying the foundations of the discipline, major theories of mental architecture, the principal areas of research, and extensions of AI such as artificial life. With a focus on theory rather than technical and applied issues, the volume will be valuable not only to people working in AI, but also to those in other disciplines wanting an authoritative and up-to-date introduction to the field.

Editorial Review

About the Author

Keith Frankish is Visiting Senior Research Fellow at the Open University and Adjunct Professor with the Brain and Mind Program in Neurosciences at the University of Crete. He is the author of *Mind and Supermind* (Cambridge, 2004) and *Consciousness* (2005). He is co-editor of *In Two Minds: Dual Processes and Beyond* (with Jonathan St B. T. Evans, 2009), *New Waves in Philosophy of Action* (with Jesús H. Aguilar and Andrei A. Buckareff, 2010) and *The Cambridge Handbook of Cognitive Science* (with William Ramsey, Cambridge, 2012).

William M. Ramsey is Associate Professor of Philosophy at the University of Nevada, Las Vegas. He is the author of *Representation Reconsidered* (Cambridge, 2007) and co-editor of *Philosophy and Connectionist Theory* (with David Rumelhart and Stephen Stich, 1991), *Rethinking Intuition* (with Michael DePaul, 1998) and *The Cambridge Handbook of Cognitive Science* (with Keith Frankish, Cambridge, 2012).

Users Review

From reader reviews:

Douglas Whatley:

The book *The Cambridge Handbook of Artificial Intelligence* can give more knowledge and also the precise product information about everything you want. Why then must we leave the good thing like a book *The Cambridge Handbook of Artificial Intelligence*? Several of you have a different opinion about book. But one aim that will book can give many facts for us. It is absolutely appropriate. Right now, try to closer along with your book. Knowledge or info that you take for that, you are able to give for each other; you could share all of these. Book *The Cambridge Handbook of Artificial Intelligence* has simple shape however you know: it has great and large function for you. You can search the enormous world by open and read a e-book. So it is very wonderful.

James Crist:

As people who live in the modest era should be revise about what going on or information even knowledge to make these people keep up with the era which can be always change and move forward. Some of you maybe may update themselves by reading through books. It is a good choice in your case but the problems coming to anyone is you don't know which you should start with. This *The Cambridge Handbook of Artificial Intelligence* is our recommendation to help you keep up with the world. Why, since this book serves what you want and wish in this era.

Christopher Decker:

Now a day people that Living in the era everywhere everything reachable by match the internet and the resources inside it can be true or not involve people to be aware of each information they get. How many

people to be smart in having any information nowadays? Of course the correct answer is reading a book. Looking at a book can help persons out of this uncertainty Information particularly this The Cambridge Handbook of Artificial Intelligence book since this book offers you rich info and knowledge. Of course the knowledge in this book hundred per-cent guarantees there is no doubt in it you know.

Walter Dion:

Reading a guide make you to get more knowledge from it. You can take knowledge and information from your book. Book is created or printed or descriptive from each source which filled update of news. In this modern era like today, many ways to get information are available for an individual. From media social just like newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just trying to find the The Cambridge Handbook of Artificial Intelligence when you needed it?
