The FIRST TIME By Cher

Cher. There's really no one else quite like her. She's been a pop star, a TV star, a movie star, and a wife and mother, yet as "The New York Times" has written, she's still "a funny, gutsy woman" who is also "genuine" and "down to earth." And now, in "The First Time, " Cher tells about the important first-time events in her life.

Editorial Review

Amazon.com Review

Sonny Bono once said that Cher was so stupid that she thought the moon was the back side of the sun. Well, if he had lived to read this book he would be eating those very mean words. Cher had many first times in her life, and she puts them all down on paper here. For example, Cher shares her thoughts on politics in the section entitled "My First Allergic Reaction to Republicans." Here, she comments that Jackie Kennedy was much better looking than Mamie Eisenhower. How could anyone vote for Nixon, wonders Cher, when he was so "creepy" and his wife was "pinchy-faced"? But Cher thinks about more than just politics. There's also the first time she had sex with an Italian, the first time she had sex with a "bad boy" and the first time she had sex with a "mook." Cher even has something to say about clothing. If you're looking for a book that's hard to read, look elsewhere, but if you want the inside scoop on the depths of Cher's thoughts, served up in one-page essays, this is the book for you. --*James DiGiovanna*

From Library Journal

Cher's quasi-autobiography is divided into anecdotal mini-chapters, each with a title including "first" ("My First Memory," "My First Plastic Surgery"). The gimmicky format results in a lack of both continuity and depth—the text reads as if it were transcribed from tape recordings, and frequent passages of re-created dialog seem awkward and false. Scattered throughout, however, are entertaining reminiscences and infrequent glimpses of a likable and straightforward person. Especially touching are fragments that reveal the vulnerable child who survived a chaotic upbringing by idolizing Holly Golightly, listening to Broadway scores, using clothes to express herself, and dreaming of stardom. These moments of enlightenment make one hope for a thoughtful autobiography in the future. Cher has been the subject of a few biographies, the best of which is Lawrence J. Quirk's *Totally Uninhibited* (LJ 8/91). Recommended for public libraries with a demand for celebrity biographies.

From Booklist

Cher has battled on and off with chronic fatigue syndrome, so perhaps that's why she was too tired to write a real book. Even with a cowriter, all she could come up with are short vignettes playing on the "first" theme: "My First Bicycle" and "My First Bra" from the early chapters, and later, "My First Fifteen Minutes of Fame," "My First Mansion," and "My First Affidavit from a Plastic Surgeon." Finally, the collection concludes with "My First Tragedy," on the death of Sonny Bono. Each of these many, many vignettes gets a page or a couple of pages. The first-person writing is breezy enough, and interested fans will learn something of Cher and her life. But for the most part, this is like a TV show made up of clips. Just when you want to see more, the focus moves on to something else. Expect to see Cher on the talk-show circuit, hawking the book like she once hawked hair products ("My First Infomercial"). *Ilene Cooper*
