A History of East Asia: From the Origins of Civilization to the Twenty-First Century By Charles Holcombe

Charles Holcombe begins his extraordinarily ambitious book by asking the question "What is East Asia?" In the modern age, many of the features that made the region - now defined as including China, Japan, and Korea - distinct have been submerged by the effects of revolution, politics, or globalization. Yet, as an ancient civilization, the region had both an historical and cultural coherence. It shared, for example, a Confucian heritage, some common approaches to Buddhism, a writing system that is deeply imbued with ideas and meaning, and many political and institutional traditions. This shared past and the interconnections among three distinct, yet related societies are at the heart of this book, which traces the story of East Asia from the dawn of history to the early twenty-first century. Charles Holcombe is an experienced and sure-footed guide who encapsulates, in a fast-moving and colorful narrative, the vicissitudes and glories of one of the greatest civilizations on earth.

Editorial Review

Review

"For general readers and interested students alike, this book will be a delight. Holcombe has a good eye and ear for what is historically important, and his coherent narrative thread connects the chapters of his book like the beads of a necklace" - David Curtis Wright, Department of History, University of Calgary

"Holcombe's book is going to be a very important text for undergraduates and general readers looking for a fresh approach to East Asian history. He takes the reader through all the requisite periods and places, yet does so in ways which bring out new insights and connections. Holcombe engages with important themes in current scholarship and shows how they are really relevant to better understanding the complex and diverse history of this critical region. His approach to synchronous developments across China, Korea and Japan, and the ways in which the historical narratives of these countries interact with each other, make this a most useful and enlightening book." - Ken Hammond, Professor of East Asian History, New Mexico State University

"Treading a line between the emerging field of transnational history and a more traditional regional history, Holcombe has written a valuable and impressive guide to the histories of East Asia. The historical and regional scope, reaching from the ancient past to the ultra-modern present, is unprecedented in a volume of this size. Students of East Asia and of international history will find this book essential reading." - Chris Goto-Jones, Professor and Director of the Modern East Asia Research Centre, Leiden University

About the Author

Charles Holcombe is Professor of History at the University of Northern Iowa. His publications include *The Genesis of East Asia, 221 B.C.-A.D. 907* (2001) and *In the Shadow of the Han: Literati Thought and Society at the Start of the Southern Dynasties* (1994).

Users Review

From reader reviews:

Ruth Michel:

A lot of people always spent their free time to vacation or maybe go to the outside with them family members or their friend. Do you realize? Many a lot of people spent they will free time just watching TV, or playing video games all day long. If you want to try to find a new activity that's look different you can read some sort of book. It is really fun for yourself. If you enjoy the book you read you can spent all day every day to reading a reserve. The book *A History of East Asia: From the Origins of Civilization to the Twenty-First Century* it doesn't matter what good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. Should you did not have enough space to bring this book you can buy the e-book. You can m0ore quickly to read this book out of your smart phone. The price is not to fund but this book features high quality.

This particular A History of East Asia: From the Origins of Civilization to the Twenty-First Century can give you a lot of pals because by you investigating this one book you have issue that they don't and make a person more like an interesting person. That book can be one of a step for you to get success. This book offer you information that possibly your friend doesn't recognize, by knowing more than some other make you to be great people. So , why hesitate? Let me have A History of East Asia: From the Origins of Civilization to the Twenty-First Century.

Everette Murray:

As a college student exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the educator want, like asked to the library. They go to right now there but nothing reading really. Any students feel that looking at is not important, boring and can't see colorful images on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this A History of East Asia: From the Origins of Civilization to the Twenty-First Century can make you experience more interested to read.
