Prealgebra and Introductory Algebra plus NEW MyMathLab with Pearson eText -- Access Card Package (4th Edition) (Lial Developmental Math Series) By Margaret L. Lial, Diana L. Hestwood

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

The **Lial Series** has helped thousands of students succeed in developmental mathematics by providing the best learning and teaching support to students and instructors.

This package consists of the textbook plus an access kit for MyMathLab/MyStatLab.

MyMathLab provides a wide range of homework, tutorial, and assessment tools that make it easy to manage your course online.

Editorial Review

About the Author

Marge Lial (late) became interested in math at an early age—it was her favorite subject in the first grade! Marge's intense desire to educate both her students and herself inspired the writing of numerous best-selling textbooks. Marge, who received Bachelor's and Master's degrees from California State University at Sacramento, was affiliated with American River College. An avid reader and traveler, her travel experiences often found their way into her books as applications, exercise sets, and feature sets. She was particularly interested in archeology; trips to various digs and ruin sites produced some fascinating problems for her textbooks involving such topics as the building of Mayan pyramids and the acoustics of ancient ball courts in the Yucatan. We dedicate the new editions of the paperback developmental math series to Marge in honor of her contributions to the field in which she helped thousands of students succeed.

Diana Hestwood lives in Minnesota and has taught at Metropolitan Community College in Minneapolis for two decades. She has done research on the student brain and is an expert on study skills. She is the author of Lial/Hestwood's *Prealgebra* and coauthor of Lial/Salzman/Hestwood's *Basic Math* and Lial/Hestwood/Hornsby/McGinnis's *Prealgebra and Introductory Algebra*.

Users Review

From reader reviews:

Vera Gates:

Your reading sixth sense will not betray you actually, why because this Prealgebra and Introductory Algebra plus NEW MyMathLab with Pearson eText -- Access Card Package (4th Edition) (Lial Developmental Math Series) guide written by well-known writer who really knows well how to make book that may be understand by anyone who all read the book.
