The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science)

From Springer

It is a great pleasure to share with you the Springer CCIS proceedings of the First World Summit on the Knowledge Society - WSKS 2008 that was organized by the Open Research Society, NGO, <http://www.open-knowledge-society.org>, and hosted by the American College of Greece, <http://www.acg.gr>, during September 24–27, 2008, in Athens, Greece. The World Summit on the Knowledge Society Series is an international attempt to promote a dialogue on the main aspects of a knowledge society toward a better world for all based on knowledge and learning. The WSKS Series brings together academics, people from industry, policy makers, politicians, government officers and active citizens to look at the impact of information technology, and the knowledge-based era it is creating, on key facets of today's world: the state, business, society and culture. Six general pillars provide the constitutional elements of the WSKS series:

- Social and Humanistic Computing for the Knowledge Society—Emerging Technologies and Systems for the Society and Humanity
- Knowledge, Learning, Education, Learning Technologies and E-learning for the Knowledge Society
- Information Technologies—Knowledge Management Systems—E-business and Enterprise Information Systems for the Knowledge Society
- Culture and Cultural Heritage—Technology for Culture Management—Management of Tourism and Entertainment—Tourism Networks in the Knowledge Society
- Government and Democracy for the Knowledge Society
- Research and Sustainable Development in the Knowledge Society

The summit provides a distinct, unique forum for cross-disciplinary fertilization of research, favoring the dissemination of research that is relevant to international re-

Users Review

From reader reviews:

Nellie Davis:

Spent a free time to be fun activity to perform! A lot of people spent their leisure time with their family, or their very own friends. Usually they doing activity like watching television, planning to beach, or picnic within the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own free time/ holiday? Could be reading a book may be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the book untitled The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science) can be very good book to read. May be it can be best activity to you.

Daniel Buch:

The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science) can be one of your basic books that are good idea. Many of us recommend that straight away because this book has good vocabulary that will increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to set every word into delight arrangement in writing The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science) yet doesn't forget the main stage, giving the reader the hottest in addition to based confirm resource data that maybe you can be considered one of it. This great information can easily drawn you into brand-new stage of crucial contemplating.

Joseph Whitely:

Don't be worry when you are afraid that this book will filled the space in your house, you could have it in e-book method, more simple and reachable. This The Open Knowledge Society: A Computer Science and

Information Systems Manifesto (Communications in Computer and Information Science) can give you a lot of friends because by you investigating this one book you have matter that they don't and make anyone more like an interesting person. This kind of book can be one of one step for you to get success. This book offer you information that perhaps your friend doesn't know, by knowing more than some other make you to be great persons. So , why hesitate? Let us have The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science).

Harold Esparza:

As a university student exactly feel bored to be able to reading. If their teacher asked them to go to the library or even make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that looking at is not important, boring and also can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this The Open Knowledge Society: A Computer Science and Information Systems Manifesto (Communications in Computer and Information Science) can make you truly feel more interested to read.
