Methods in Medical Ethics From Brand: Georgetown University Press

Medical ethics draws upon methods from a wide array of disciplines, including anthropology, economics, epidemiology, health services research, history, law, medicine, nursing, philosophy, psychology, sociology, and theology.

In this influential book, outstanding scholars in medical ethics bring these many methods together in one place to be systematically described, critiqued, and challenged. Newly revised and updated chapters in this second edition include philosophy, religion and theology, virtue and professionalism, casuistry and clinical ethics, law, history, qualitative research, ethnography, quantitative surveys, experimental methods, and economics and decision science. This second edition also includes new chapters on literature and sociology, as well as a second chapter on philosophy which expands the range of philosophical methods discussed to include gender ethics, communitarianism, and discourse ethics. In each of these chapters, contributors provide descriptions of the methods, critiques, and notes on resources and training.

Methods in Medical Ethics is a valuable resource for scholars, teachers, editors, and students in any of the disciplines that have contributed to the field. As a textbook and reference for graduate students and scholars in medical ethics, it offers a rich understanding of the complexities involved in the rigorous investigation of moral questions in medical practice and research.

Editorial Review

Users Review

From reader reviews:

Willard Edwards:

Here thing why this Methods in Medical Ethics are different and trusted to be yours. First of all looking at a book is good but it really depends in the content than it which is the content is as scrumptious as food or not. Methods in Medical Ethics giving you information deeper and different ways, you can find any reserve out there but there is no guide that similar with Methods in Medical Ethics. It gives you thrill reading journey, its open up your eyes about the thing in which happened in the world which is might be can be happened around you. It is easy to bring everywhere like in playground, café, or even in your way home by train. When you are having difficulties in bringing the branded book maybe the form of Methods in Medical Ethics in e-book can be your choice.

Evan Miller:

Your reading sixth sense will not betray you actually, why because this Methods in Medical Ethics e-book written by well-known writer we are excited for well how to make book that can be understand by anyone who also read the book. Written inside good manner for you, still dripping wet every ideas and composing skill only for eliminate your hunger then you still doubt Methods in Medical Ethics as good book not just by the cover but also by content. This is one publication that can break don't evaluate book by its include, so do you still needing one more sixth sense to pick this particular!? Oh come on your looking at sixth sense already alerted you so why you have to listening to a different sixth sense.

Luther Keller:

The book untitled Methods in Medical Ethics contain a lot of information on this. The writer explains your ex idea with easy method. The language is very clear and understandable all the people, so do certainly not worry, you can easy to read the idea. The book was authored by famous author. The author gives you in the new period of time of literary works. It is easy to read this book because you can read on your smart phone, or gadget, so you can read the book with anywhere and anytime. In a situation you wish to purchase the e-book, you can open their official web-site in addition to order it. Have a nice examine.

Benjamin Herrera:

That book can make you to feel relax. That book Methods in Medical Ethics was bright colored and of course has pictures around. As we know that book Methods in Medical Ethics has many kinds or genre. Start from kids until teenagers. For example Naruto or Investigation company Conan you can read and think that

you are the character on there. So , not at all of book tend to be make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for yourself and try to like reading this.
