Technical Textile Yarns (Woodhead Publishing Series in Textiles) From Woodhead Publishing

Technical yarns are produced for the manufacture of technical textiles. As the range of technical textiles is rapidly increasing, an understanding of the range of yarns available and their properties is important, in order to be able to meet the requirements of the intended end-use.

Part one of the book begins by reviewing the advances in yarn production. Topics examine the advances in textile yarn spinning, modification of textile yarn structures, yarn hairiness and its reduction and coatings for technical textile yarns. The second group of chapters describes the range of technical yarns, such as electro-conductive textile yarns, novel yarns and plasma treated yarns for biomedical applications. Technical sewing threads and biodegradable textile yarns are also discussed.

Technical textile yarns provides essential reading for yarn and fabric manufacturers, textile scientists, technicians, engineers and technologists, covering a wide range of areas within textile applications. This book will also be an important information source for academics and students.

- Provides a comprehensive overview of the variety of technical textile yarns available along with individual characteristics and production methods
- Documents advances in textile yarn spinning and texturising featuring compact, rotor and friction spinning
- Assesses different types of technical yarns including plasma-treated yarns for biomedical applications and hybrid yarns for thermoplastic composites

Editorial Review

About the Author

Dr R. Alagirusamy is Professor in the Department of Textile Technology at Indian Institute of Technology, New Delhi. He has completed his Ph.D. from Georgia Tech, USA. He has authored several chapters in bestsellers in textiles and possesses several research papers published in reputed national and international journals.

Dr Apurba Das is Associate Professor in the Department of Textile Technology, Indian Institute of Technology (IIT), New Delhi, India. He has wide experience in industries, including research and development and quality management. He has published more than 100 research papers in journals and conferences and written chapters in several books. His main areas of teaching and research interests include clothing comfort, yarn manufacturing, non-conventional spinning techniques, evaluation of textile materials and technical textiles.

Users Review

From reader reviews:

Frank Miller:

Book is actually written, printed, or created for everything. You can know everything you want by a guide. Book has a different type. We all know that that book is important matter to bring us around the world. Close to that you can your reading ability was fluently. A reserve Technical Textile Yarns (Woodhead Publishing Series in Textiles) will make you to end up being smarter. You can feel a lot more confidence if you can know about anything. But some of you think in which open or reading a book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you trying to find best book or appropriate book with you?

Lawrence Rector:

Do you have something that you prefer such as book? The reserve lovers usually prefer to decide on book like comic, short story and the biggest some may be novel. Now, why not attempting Technical Textile Yarns (Woodhead Publishing Series in Textiles) that give your fun preference will be satisfied simply by reading this book. Reading habit all over the world can be said as the opportunity for people to know world better then how they react towards the world. It can't be mentioned constantly that reading behavior only for the geeky man or woman but for all of you who wants to become success person. So , for every you who want to start reading as your good habit, you may pick Technical Textile Yarns (Woodhead Publishing Series in Textiles) become your own starter.
