## The Massacre at El Mozote: A Parable of the Cold War (Classics of Reportage) By Mark Danner

Reportage resists easy definition and comes in many forms - travel essay, narrative history, autobiography - but at its finest it reveals hidden truths about people and events that have shaped the world we know. This new series, hailed as 'a wonderful idea' by Don DeLillo, both restores to print and introduces for the first time some of the greatest works of the genre. In December 1981, the inhabitants of a small Salvadoran hamlet were systematically exterminated by the Atacatl Battalion, a U.S.-trained counter insurgency force. The Reagan administration, determined to preserve U.S. support for El Salvador's war against leftist guerrillas, downplayed reports of this massacre dismissing them as propaganda, and the American-funded war in El Salvador continued. But Mark Danner's subsequent reconstruction is a masterpiece of scrupulous investigative journalism and a testament to the forgotten victims of one of the worst massacres in Latin American history.

### Editorial Review

#### From Publishers Weekly

Based in large part on his extensive account published in the December 6, 1993, issue of the *New Yorker*, National Magazine Award winner Danner's engrossing study reconstructs events that took place some dozen years before. In December 1981, over 750 men, women and children were killed in El Mozote, El Salvador, and the surrounding hamlets. Although at the time it was covered on the front pages of both the *New York Times* and the *Washington Post*, the reports were not enough to derail Ronald Reagan's push to prove that the El Salvadoran government was "making a concerted and significant effort to comply with internationally recognized human rights." Why the government chose to ignore stories in the nation's two leading newspapers is one part of Danner's sad, well-researched book. The other is why El Mozote was attacked at all. Populated by evangelical Christians who, unlike Catholic neighbors fed on liberation theology, did not abet the rebel FMLN, the people of El Mozote believed they would be spared when the army decided to wipe out insurgents and their supporters. After several days of brutal rapes and murders, a handful of people managed to escape to the rebels, setting in motion press reports and the under-investigated, coyly couched American embassy reply that allowed the U.S. to continue its massive subsidies. Danner has disinterred an event that is an equal indictment of Salvadoran brutality and American blindness.

#### From Library Journal

In October 1992, the international community was shocked to hear of the recovery from shallow graves of 25 bodies, all but two of them children, near the ruined church of Santa Catarina in the village of El Mozote, El Salvador. Shortly thereafter, another 100 corpses were discovered elsewhere in the village. After 11 years of investigation, political pressure, and intense lobbying efforts by human rights groups, civil libertarians, and concerned individuals, the truth of what really happened in 1981 in this remote Salvadoran village finally began to emerge, a flashback to the infamous My Lai massacre of the Vietnam War. The situation in El Mozote was similar: villagers caught in the political crossfire between rival groups during a brutal war, trying to remain on friendly terms with their own soldiers while fearing to alienate the opposition. Danner's well-written account, which first appeared in *The New Yorker* and has been expanded here, does a good job of presenting evidence based on eyewitness accounts and reveals the callousness of U.S. Central American policy (the killers were American-trained soldiers of the Salvadoran Army). Especially recommended for Latin American collections.

#### Review

"Mark Danner is one of our best, most ambitious narrative journalists. He writes only on what he knows deeply, cares about passionately. His harrowing, rebuking account of an atrocious episode of the civil war in El Salvador touches on many of the central issues raised by American policies and journalistic practice in the Cold War and after. This is an admirable, necessary book."

-- Susan Sontag

"Mark Danner's account of what happened at El Mozote is a gripping story on three levels -- that of the

massacre, that of the official cover-up and that of the press. It is also a brilliant piece of writing." -- Frances Fitzgerald
